Ref:- Board's Refee. No.Y. 2568/45-3, dated 2-11-1945.

The Board has not yet decided whether the irrigation of the lands in the D.M.Samudram soldiers colony should be from the wells or from the anicut across the Thittahalla which is proposed to be constructed. But it is desirable to have irrigation of some kind as rain fall in Kollegal taluk as a whole has been very uncertain and precarious during the last few years and even the dry crops have been successively a failure. If the irrigation wells have to be sunk, then it will be good to have some trial borings put down even now on the site. I therefore enclose a copy of the ~~Axxxxxxxxxxxxxxxxx~~ ~~Exgixxxxx~~ estimates for Rs. 2000/- (Rupees two thousand only) received from the Assistant Industrial Engineer, Coimbatore for putting down ten trial borings. I request that the estimates may be sanctioned so that the sinking of irrigation wells may be preceded by trial borings in case it is decided to have wells.
